Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The amendment filed 9/11/06 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: References to the cigar making machine, relating to that which is depicted in the figures, have been deleted from the written disclosure. By doing so, Applicant has misrepresented the invention in the drawings filed and, hence, has introduced new matter into the disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 4-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant continues to recite a "machine for conditioning cigars", without also indicating that this "machine" includes structure associated with a "cigar maker" or "machine for manufacturing cigars" – as depicted in the drawings. It is clear that Applicant's invention only functions in the context of a cigar maker due to the fact that a distribution station from which cigars are taken up by conveyor means and directed along a path is a conventional element of a cigar maker (as indicated in the instant

Art Unit: 1731

specification). Therefore, the cigar maker needs to be clearly recited at least in the preamble of the claims. Additionally, Applicant's drawings, and the detailed description of the invention as represented by the drawings, denote, as originally filed, a portion of a machine for manufacturing cigars, said manufacturing machine being in conjunction with the claimed invention. Therefore, it appears that Applicant has failed to particularly point out and distinctly claim the subject matter since Applicant has not recited the claimed machine for conditioning cigars in combination with "a cigar maker" or "a machine for making cigars". The Examiner suggests the following language for the preamble: "In a cigar maker, a machine for conditioning cigars....". Claim amendment is requested.

4. In independent claims 1 and 23, it is not clear what the phrase "connected directly" means in terms of "structural" relationship between "each needle" and other elements of the machine. Claim amendment is requested.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dionne Walls Mayes whose telephone number is (571) 272-1195. The examiner can normally be reached on Mon-Fri, 7AM - 4:30PM.
